FACULTY EXHIBITION
THE SCHOOL OF ART
SYRACUSE UNIVERSITY

November 20–December 17, 1966

THE EDWARD W. ROOT ART CENTER
Hamilton College
Clinton, New York
Selected from this year's annual faculty exhibition shown at Syracuse University's Joe and Emily Lowe Art Center, the works included here reflect the excitingly varied points of view that characterize the fast changing styles of art today. In this exhibition the work of the industrial designer, the potter, the weaver, the silversmith, is given equal billing with that of the painter, the sculptor and printmaker. The Exhibition offers not only a rewarding glimpse into the individual approaches of the 37 artist-instructors represented, but also, and more significantly in this context, the exhibition calls attention to the wide ranging forms of expression, novel ideas and techniques to which students are exposed in their studies at Syracuse.

Dr. Laurence Schmeckebier, Dean of the School of Art, has been most helpful in arranging this exhibition, and we are grateful to him and to the artists represented.
